SUMMARY OF THE REASONS FOR DECISION:

The video recording entitled *Teen Sex Video 4* has been classified as: Objectionable.

The video recording contains a feature in which two males and one female engage in sexual activity. The physical appearance and manner of the participants indicate that they are young persons. They have adolescent body shapes and facial features. They seem inexperienced and somewhat clumsy during some of the sexual activity. The title of the publication emphasises the fact that the participants are intended to be seen as young persons, and that the viewer is intended to derive sexual titillation from this fact. The publication is therefore considered to promote and support the exploitation of young persons for sexual purposes.

The publication presents material that is deemed to be objectionable under the Films, Videos, and Publications Classification Act 1993. Therefore, the rights and freedoms specified in the New Zealand Bill of Right Act 1990 cannot be applied to the publication.
